"Sweden arise"

We're vikings, go berserk
We're gonna kick every bloody jerk
For our pride and for our loyalty
Fighting for our own country
You stink, you know it
Stick yor ugly head up and I'll blow it
You're the public enemy number one
You're gonna regret the things you've done

Sweden arise! For blood and honour
Sweden arise! For our pride
Sweden arise! For blood and honour
Sweden arise! For our pride

We've got power, we've got hate
We're gonna clean up on our gate
Try to fuck with me dirty traitor
Your time will come later
Stop the immigration,
take back our lovely nation
Going back to our history,
at last we salute the Victory

Sweden arise! For blood and honour
Sweden arise! For our pride
Sweden arise! For blood and honour
Sweden arise! For our pride

Sweden arise! For blood and honour
Sweden arise! For our pride
Sweden arise! For blood and honour
Sweden arise! For our pride
