Here I come may I just remind you that
for your whole life you've been searching for only me
This would be a cat and it would do its meow
that would be a dog and say woof woof
I have the ball, where are the bowls?
I know it's not impossible to knock them all over
Fever is rising, forehead is sweaty already
Even though I'm a woman I hit on like a man

chorus:

I feel wicked and dangerous
The time of summer rubber is clearly about to begin
You must surrender to me
There's much in me to reveal when we're alone

I cancelled my dating search
I'm certain today I'll find a boyfriend
I have everything one could ask for
I'm trust-worthy, nice, lovely and innocent

chorus x 2

A strong will to dance
The summer rubber time is clearly about to begin
I want romance here right now
There's much in me to reveal when we're alone

I haven't made it before
Now I'm going to make it all go perfect
Certainly just great

Here I come may I just remind you
for your whole life you're only been searching for me
I'm worth my weight in gold, the most beautiful girl in
the world
Step into a line, today we'll choose the prince
You'll have everything you've been searching for
You might as well stop searching already
Here I am, study me
I am perfect so start falling in love already!

chorus x 2
