Hey, please knock me down
Back down to the earth
So I can recall what all this is worth
I got what I want
but that's never enough

Hey, please knock me down
Back down to my face
So I don't take for granted this beautiful place,
this beautiful space
your beautiful face

Chorus:
But you, you make it so easy
You got the perfect change
The perfect change for me
You make it so easy you got the perfect change
The perfect change for me

Stop, don't throw me no rope
I've said my good-bye's
I'd rather be here in the pull of this tide
Did I just close my eyes
Or did I open my mind
For the very first time

Chorus

I've said my good-bye's
I'd rather be here in the pull of this tide
Did I just close my eyes
Or did I open my mind
For the very first time

Chorus
