The hurricane is coming now, the overwhelming crowd  
will pull me under,  
And it was obvious...

Places everyone, we don't want them to know what  
we've been up to,  
Zip your lips and attach a smile you've been faking  
since always.

I am the promises you never kept, the face you wear  
when you're upset,  
Love the guilty conscience,  
So take off all the makeup you've been made up in,  
I can't believe they always believed I never caught on to  
any of it.

The hurricane is coming now, they overwhelming  
crowd will pull me under,  
It's obvious that you are stronger now and I pray  
someone will help us out,  
But we can't win, we can't win ever again because  
everybody will sell you out...

Everybody, everybody will give an applause to their  
outstanding performance,  
But behind the curtains when they remove their masks,  
I believe a standing ovation is a little too much for this  
fabrication.

Our voices have been drowned out, appearance turned  
inside out,  
Our voices have been drowned out, your only safe  
haven is your show  
Which is slowly burning out, your safe haven is your  
show which is slowly burning out,  
Where are you friends now?

Places everyone, we can't have them finding out what  
we've known all along,  
This trip is false and everyone's on to it.  
Please, please don't ask how I know,  
It must have been the cover you blew a long time ago...

Well it's so obvious, finally I've figured you out  
Everybody, everybody will sell you out  
Everybody, everybody will sell you out.

My only concern is myself
