Pull the door shut, lock the windows
You scare me when you're angry
I never feel safe
Listen up now, I'm trying to save you
You were always in denial
Never would listen to a word I'd say
That I would say

Try to calm down I won't leave you
Lifeless never seemed so useless
Am I losing my mind
Memories haunt me nothing to stroll clear
You think everyone's against you
That's just a part of life

I won't be afraid
To live with out you
I will be okay
You don't have to worry
I will be alright
In this life time
I will survive
I don't need you to worry
Cause I'll be fine
This time (this time)

A nation takes it's toll
You were left all alone
And no one is there for you
By yourself you feel cold
Dying fast as you grow cold
Every thing you believe isn't true

I won't be afraid
To live with out you
I will be okay
You don't have to worry
I will be alright
In this life time
I will survive
I don't need you to worry
Cause I'll be fine

This time

When you do those things tonight
Will you think of me
Will you remember this time
Forget about me
I won't lose sight of you
And there's nothing I wouldn't do
To let you know
That I'm fine
This time [screaming]
