Visit "[This Disease](#)" on [MotoLyrics.com](https://MotoLyrics.com)

If I could say anything to you  
If I had one chance to let you know  
If my last words could make you choke  
I'd save my final breath for you  
And only you

Do you feel this disease  
Kill my heart like a summer breeze  
Maybe it's just my luck, hope I never wake up  
Goodbye to you goodbye to you just to be with you  
And maybe I'm out of luck hope I never wake up  
Wake up

I'm dying just to let you know, that I could never let you  
go  
I'm dying just to let you know, that I could never let you  
go

This could be the one this could be the one (one shot  
now) [x4]

Do you feel this disease  
Kill my heart like a summer breeze  
Maybe it's just my luck, hope I never wake up  
Goodbye to you goodbye to you just to be with you  
And maybe I'm out of luck hope I never wake up  
Wake up  
Wake up [Repeat]

This could be the one this could be the one (one shot  
now) [x4]
