(bubbling sound)

YEAH....

Penny says I am an angel with my arms around the sun  
Dreaming colors blue and lonely  
Flying all the pain away

She said "make up, make up"  
I said "wake up, wake up"  
The sky is falling all around us  
Still I'm smiling... lying in the shade  
I am singing, I am laughing, I am not afraid  
I'm sipping LEMONADE

It's a lemonade rhyme, let me sparkle, let me shine  
Let me feel so high in the sky I fly  
Pretty little princess says she wanna sip this cool, cool  
Lemonade, lemonade  
I run, run, run, & I fly, fly, fly  
Sucking up her energy and it be refreshing me  
Sucking up the juices flowing  
Going down but I think I'm going "no way"  
Lemonade, lemonade

Penny says she is a princess but her prince has lost his  
crown  
In his kingdom, in her city, love is music with no sound

She said "make up, make up"  
I said "wake up, wake up"  
The sky is falling all around us  
Still I'm smiling... lying in the shade  
I am singing, I am laughing, I am not afraid  
I'm sipping LEMONADE

It's a lemonade rhyme, let me sparkle, let me shine  
Let me feel so high in the sky I fly  
Pretty little princess says she wanna sip this cool, cool  
Lemonade, lemonade  
I run, run, run, & I fly, fly, fly  
Sucking up her energy and it be refreshing me

Sucking up the juices flowing  
Going down but I think Iâ€™m going Â“no wayÂ”  
And the pretty lil princess said  
And so she said....

"make up your minddd"  
make up my mindnnndddd

Because the sky is falling all around us  
Still I'm smiling.. lying in the shade  
I am singing, I am laughing, I am not afraid  
I'm sipping LEMONADE

Itâ€™s a lemonade rhyme, let me sparkle, let me shine  
Let me feel so high in the sky I fly  
Pretty little princess says she wanna sip this cool, cool  
Lemonade, lemonade  
I run, run, run, & I fly, fly, fly  
Sucking up her energy and it be refreshing me  
Sucking up the juices flowing  
Going down but I think Iâ€™m going Â“no wayÂ”  
Sipping on lemonade yeah

(guitar plays till fades)
