

## Poets Smalltown "100 Billion Watts"

Visit "[100 Billion Watts](#)" on [MotoLyrics.com](https://MotoLyrics.com)

From the Father's mind  
You came to be  
Son of Man and Hero of the fight  
Greater than  
True love's only enemy  
You separate the darkness from the light

(Chorus)  
Greater than the strongest power  
Greater than the love  
Of a hundred billion hearts  
Brighter than my darkest hour  
You're burning at  
A hundred billion watts

All creation sighs  
Giving witness to  
The way our yearning hearts will return  
And find Your mercy  
Much greater than  
The good we left undone  
A favor human nature never earned

(Chorus)

As the thoughts of God, began to take this shape  
The Only Son was his perfection  
From the first  
And everyone who wants to welcome  
His embrace  
Knows the power  
Of the third creation verse

(Chorus)
