A lost soul
Cursed not to find eternal peace
Dwells in the shadows of the
Living world
Roaming filled with hate
For all that lives

Chorus:
How can I find the way
To the other side
Dwell in the shadows
Sunlight at dawn tormenting my mind
Melting my sanity

Humans
I despise your lives
I hate your creed
Where are the gates that shall take me
To the life beyond

Chorus

A moyor
I will never die
But you will soon
Just wait for the first moon to come
Then I'll take your life
I will guide you to find the other side

And hopefully you
Will not end like me
Burn forever in your smelly heaven
And I am immortal
Forever

Chorus
