Bayli

There's this motherfuck who wana step on us  
A spirit wana put us in his godamn bitchin fuckin lines  
Discouraging air he wants us to breathe  
Sure fail truth—the son of a bitch's guiding light  
Destructive, deceitful fear should be detected  
Resist this bitchin as an entity  
Cos those thorns will grow and crush your motivation  
Fucks up your destination!  
Fuck oppression  
And degradation  
Of self perception  
Burst out free

Hey look within that's not suppose to be  
Free from fear, that's what we ought to be  
So stop and make it known to your soul  
That you can choose or will to be  
Free from fear, and oppression  
And kill the thorns that you allowed  
To fuckin aim at you

Just you will it, when you choose  
Anti shackles burst out free  
Live a life & not intimidation  
Anti shackles burst out free  
Fuck oppression & degradation of self perception

If you tolerate this shit then you'll get the worst  
buttfuckin  
I'm makin it a damn point that you shouldn't be pushed  
in  
To the tiny cage of thorns that fear made you manifest  
it  
That son of a bitch, a motherfucker will mock you up  
everyday inside  
Everything inside are gonna be a threat  
To your heart, mind, core, & soul—  
And self respect—and self esteem  
So what the motherfuck are you gona be suppose to be  
then?  
Just another fucked up punk who'll die many times

Before the main course death comes
