My friend called just the other day  
Packed it up, he won't be back this way  
It's not your heart but the spirit they break  
There's only so much a small town boy can take

[Incomprehensible] of the countless masses  
Drinking life from the empty glasses

No more victims, no more lies  
Ne sheer heart attacks  
No more empty promises  
No more lookin' back

I came here loaded searchin' for the dream  
But nothin' is ever easy as it seems  
I thought I got closer to it every day  
But every day, it just got so far away

See all the faces paled  
Shot to hell when the system failed

No more victims, no more lies  
Ne sheer heart attacks  
No more empty promises  
No more lookin' back

I thought I could take all the shit in grind  
And stand much more pain  
But see all those dead end wishes  
Eats away at the brain

No more victims, no more lies  
Ne sheer heart attacks  
No more empty promises  
No more lookin' back

No more victims, no more lies  
Ne sheer heart attacks  
No more empty promises  
No more lookin' back

No more victims, no more lies

Ne sheer heart attacks  
No more empty promises  
No more, no more, no more lookin' back
