Lately boy, your head ain't right  
And nothin' seems to thrill you  
Word on the streets is  
No sex no more 'cause, it'll kill you

You touch, she bites  
You push, she shoves  
Then she yells in your ear  
No glove, no love  
Oh, it'll ruin the mood  
But you know she's right

When the big head stops and the little head talks  
You better learn how to walk the walk

As far as I can see  
It's really no big mystery  
It's the same old story  
No ring, no gets  
It ain't the boat you float  
It's the motion in the ocean and I quote  
Before you start pumpin' that fuel out your jet  
No ring, no

Get this feelin' comin' over you  
It's a very frustratin' emotion  
You keep thinkin your smooth  
Start makin' your move  
But your lady starts causin' commotion

You'd like to round the bases  
You know that's for sure  
'Cause Miss Palm and her five sisters just  
Don't cut it no more  
You know tonight you'd like to fly her kite  
But the wind ain't blowin' you got that right

As far as I can see  
It's really no big mystery  
It's the same old story  
Aah, no ring, no gets  
It ain't the boat you float

It's the motion in the ocean and I quote  
Before you start pumpin' that fuel out your jet  
No ring, no gets

Woman hold the lock  
A man's known that for years  
You're burnin' up inside to insert that key  
Could bring a man to tears

Your gun is loaded  
(Loaded)  
You got her right in sight  
About to pull your trigger  
When the girl puts out the lights

But keep your cool don't make a scene  
'Cause with her pop, oh, don't quit your game

As far as I can see  
It's really no big mystery  
It's the same old story  
Ah, no ring, no gets  
It ain't the boat you float  
It's the motion in the ocean and I quote, "Baby"  
Ah, no ring, no gets  
No gets, no gets  
No gets

As far as I can see  
It's really no big mystery  
It's the same old story  
[Incomprehensible]  
No ring, no gets  
No gets, no gets  
It ain't the boat you float  
It's the motion in the ocean and I quote, "Baby"

Won't mind  
That you won't mind  
That you  
That you won't mind  
That you won't mind  
(Shut up)  
That you
