Well she stepped into the room

Right then she got my eyes

She had an ass like a truck

and two amazing thumping thighs

She's built like no other

Just one big fat mother brick house

So impressed to find those breasts

A little, a little, a little (More for the Bone)

She likes whips and chains and things

She don't need no diamond rings

Couldn't get her through the door

So I did her on the floor

Lets get naked baby

And roll under the sheets

I ask one favor baby

Don't roll on top of me

She's my Crisco queen

A non-stop love machine

On the scene like a sex machine

She ain't big going get bigger

A little, a little, a little (More for the bone)

Sparks may fly like the fourth of July
Just don't get any in your eye
She's got me on a 2 by 4
So I don't fall in when she wants more
Solo
I got excited she threw
Her hands on top of me
One the size of a truck
The other the size of a tree
She whispered in my ear
Just more cushion for the pushin', dear
Guess I had to move when she got down to it
A little, a little, a little (more for the bone)
She likes whips and chains and things
She don't need no diamond rings
Couldn't get her through the door
So I did her on the floor
A little, a little, a little (more for the bone)
Sparks may fly like the fourth of July
Just don't get any in your eye
She's got me on a 2 by 4
So I don't fall in when she wants more
