### "In My Headache"

Im looking for a cure, but where I'm standing,  
It looks like another one, nothing but bad things,  
Nothing but emptiness, a hit and run life wont take you  
nowhere,  
Nothing but bad dreams, a screaming image running  
around,  
Don't ask me again cause you know what I said,  
It hurts, in my headache, in my headache,  
I tell it to go away, but it plans to stay,  
I don't want to play dead, it hurts,  
My headache, my head, in my headache it fucking  
hurts,  
And everybody's fucking everyone else,  
Cut themselves scar their feelings put on a shelf,  
Then look in the mirror, see your reflection, but can you  
see yourself,  
In your head you hear, a screaming image running  
around.
