Never know what's 'round the bend
We go up the hill and down again
And when there's trouble we'll get through
We always have and we always do

Nothing in the world can bring us down
No, not us, not us
Spread a little sunshine all around
There's never enough

All we wanna do is have a good time
Having lots of fun with all these friends of mine
All we wanna do is celebrate

Every time we've been together it's been great
Looking for adventure big and small
Just being with our friends like you is all we wanna do

All my friends are here with me
And things are good as they can be ooh
Yeah travel places near and far
But home is always where we are

Traveling the world is what we do
Because, everywhere we go
There's something new for us

All we wanna do is have a good time
Having lots of fun with all these friends of mine
All we wanna do is celebrate

Every time we've been together it's been great
Looking for adventure big and small
Just being with our friends like you is all we wanna do

Do you come along?
Just be prepared for anything
Get into the flow, get ready to go
Get ready to spread your wings

All we wanna do is have a good time
Having lots of fun with all these friends of mine

All we wanna do is celebrate

Every time we've been together it's been great
Looking for adventure big and small
Just being with our friends like you is all we wanna do

All we wanna do is have a good time
Having lots of fun with all these friends of mine
All we wanna do is celebrate

Every time we've been together it's been great
Looking for adventure big and small
Just being with our friends like you is all we wanna do
