Sweet erica
You look so lonely
That boy went and broke your heart

I told you from the start
Don't let your guard down
That's fucked up
I thought you grew up

I'll stay right by your side
The curves of you body keep me up
All night

Until the morning light
Our bodies will burn tonight
Erica please don't hold back

Pieces of me
Colided
And the cells of your body are touched
The smell of your hair
Can't contain myself
That's right I'll never get enough

I'll stay right by your side
The curves of your body keep me up all night

Until the morning light
Our bodies will burn tonight
Erica please don't hold back
Can you feel me right now?
Show me what it's all about
Erica please don't hold back

Stay
Right here
And you'll see
I hope you can come with me
Show your world to me

Forgive me
I'm not myself

Forgive me
I'm not myself
Forgive me
I'm not myself
Forgive me
I'm not myself

Until the morning light
Our bodies will burn tonight
Erica please don't hold back
Do you feel me right now
Show me what it's all about
Erica please don't hold back
Erica please don't hold back
Erica
Please don't hold back
