

Politically Incorrect "How Far We've Come"

Visit "[How Far We've Come](#)" on MotoLyrics.com

We write some lyrics, we make a beat
We start to dance, and we move are feet
The people stand up they start to rock
They all start singing and we get the party going on

We skate to school, we ride on back
We get the radio and play a music track
We dream on, we look ahead
No one could of thought we could've been so big

Time moves on, we take a break
Love burns all and hate takes the cake
But we'll come on back, we'll rock out loud
Come on dance lil' girl with your head in the clouds

Two steps left, one step right
Easy there buddy, you'll end up in a fight
But it's ok, damn all right
Even I took some punches a day in the life

And I start thinking, what could've I done
To make it this far, to live and love
Without my friends, without all you guys
How far we've come I'd only fantasize

So I tell you now, hold on to your dreams
So far away, aint that what it seems
But I was there, right where you are
Just don't let go and remember who you are
