(Verse 1)

You know I would have called you first
Traditionally
I would have asked you out
Knowingly
You could have cussed me out
Or turned me down
Who knew you felt the same
Well I do now

(Chorus)x2

I miss yesterday
Where I used to listen to everything you had to say
I miss your blue eyes, and your soft white skin
Your cutest smile, and your blue hair pin
And the way you walk, oh the way you talk
The way you talked, the way we talked

(Verse 2)

We used to talk every night
On the telephone
Till' you said good night
In your sweetest tone
Then I went to bed
And layed my head
On my beadspread
I swear you were in my head

(Chorus)x2

(Bridge)

I can't hear your voice, but talking to me
I can't see your face, but your looking at me
I can't smell your hair, but your killing me
Your killing me, your killing me
And I miss yesterday
(I miss yesterday)x15

(Chorus)
