

Polkadot Cadaver

"Barefoot"

Visit "[Barefoot](#)" on MotoLyrics.com

Self-branded as cautious
A stupid euphemism
Your face displays all of your fears
Don't think that you can think your way out now
What are the problems you've been having
Supercilious and so hard to find
I think you should should it off
And go barefoot
Just go barefoot
Once right and still right
Preserved like artifacts
Gone over and obvious ground
The solution is that there is no solution
You never really think about it
Cause if you ever thought about it you'd know
And if you really thought too much
You'd realize you don't think enough
