Your not the only one
So go and have your fun
I'm contagious
And I'm bringing it home to you

Every life forsaken
Slow deep breathes I'm taking
A clear shot in my sight
The bulls-eye is open wide
You spread across my skull
And you wink and guide me in
Possession en-route
Split me down the middle I've become so...

Weakened by
The will to be
Stronger than
Your love for me
Crazy hearts
In padded rooms
Close to death
So far from you

Close to death
So far from you

Rock your body back and forth
Foul rhythms pumping in time
Brain stems, rose pedals
Damaged goods, infected minds
Sterilized, anesthetized
Surgery begins
Heavy eyelids, cold steel scalpel

Weakened by
The will to be
Stronger than
Your love for me
Crazy hearts
In padded rooms
Close to death

So far from you

My eyes roll back I scream your name
Losing form and spilling out
Nothing but the air that I breathe
Sifting through the ashes of my smouldering memories
Nothing but the air that I breathe

We play 'Truth or dare'
Till were black and blue
Unbreakable, I lay back Inside of you
And before I can speak
With sweat dripping off of your cheek
Whispering softly you repeat to me
Show me that your stronger than weak
Show me that your stronger than weak

Weakened by
The will to be
Stronger than
Your love for me
Crazy hearts
In padded rooms
Close to death
So far from you

My eyes roll back I scream your name
(Weakened by)
Losing form and spilling out
(The will to be)
Nothing but the air that I breathe
(Stronger than
Your love for me)
Sifting through the ashes of my smouldering memories
(Crazy hearts
In padded rooms)
Nothing but the air that I breathe
(Close to death
So far from you)
So far from you
