"Amberwood"

Visit "[Amberwood](#)" on MotoLyrics.com

When we started everything seemed shiny and bright
Beyond our means but not quite out of reach
How far beyond do you think we need to go
Cause I don't want to live that way
Amberwood
It doesn't matter what we planned to do this time
Those plans are being laid aside again
Unforeseen is my new middle name
But I don't want to live this way
Amberwood
Take a second
Take a minute
Take an hour
Take a week
To decide how it all will turn out
And in that second
In that minute
In that hour in that week
You will know if your ready to go
And if it's worth it all
Its not as far away as you might think it is
People are doing these things everyday
I don't see how they're much better than us
But they don't have to live this way
Amberwood
I will make it to Amberwood
