"It's all hopelessness, but we add hope in a sea of...of hopelessness." The air stings my eyes I've seen the reactions through my actions The water burns my skin But I don't try to change a thing at all We're taught to close our eyes And conditioned to believe their lies To build the things that own our lives As we watch them rape the land and skies Were driven by greed And we'll never stop We'll never stop We take more than we need Our society And we'll never stop The politicians with their lies And they'll never stop Still we refuse to change our lives And we all fall down The corporations won't compromise All fall down We all fall down All fall down All fall down All fall down And we all fall down We all fall down All fall down Ourselves without regard for our surroundings The rest never looking back at the damage We do what is convenient for Or each other and take what we want And discard Always moving forward That we've done And we all fall down Closer to oblivion All fall down
