I'm comin' through, it's the voice you can't ignore, it's  
Afu

Hey yo, this is Gifted Unlimited, peace, Afu  
You know we been doin' it for years, man  
Show these fools how it's supposed to be done, baby

Uh, I spent time learnin' to kill, that's right  
I'm stretching out with my tentacles when I nourish my  
skills  
The illest with that other shit, perverted with this  
Come and step inside the mother ship

I got the codes and manuals and microchip to flip the  
script  
Parallel to my thoughts, tryin' to get  
I keep it hooked up, but not the great white hope  
Hey yo, Preemo, should I hit 'em with the rope of dope

Sea shells, sea shells by the sea shore  
But now I'm slap, tap and a rap an' attack your jaw  
Summertime, ladies at the bus stop  
When I roll without the drop, they yellin'  
Shimmy, shimmy, Coco Pop

Ill with the slurs, what? And I'm thick like yogurt  
Quick to quick to quick to bust a fast word  
I know you like what you think what you like  
But I stick out on a track and blind your third-eye sight

Why do you think that we should settle for less?  
Now take a deep breath  
No time to get rest when cats is testin' your vest

Kid you know who we are  
Afu to the Gang to the Starr  
We got props on every boulevard

I do it like this and that, straight knowledge drippin'  
right out my hat  
Like sex and candle wax  
As a matter of a fact I take it back, in the days

If you whack, in fact, you get the bozack

And the chickens, are thinkin' they finger-lickin'  
Tryin' to get the party kicking  
But really they should be stinkin'  
Crack the asphalt, while doing lyrical somersaults  
Slang slay your head, bang a boogie

I got a think-tank, that's lightin' up with the blinks  
Move and sway but I'm compared to mint  
Some cats can't forget the spiritual and mental  
Straight up, yo, I slap 'em with a miracle

Expressin' everything, including the kitchen sink  
Building on topics from aluminum and zinc  
So while you fix your kicks, I do triple axles  
Get in your bath or round the rink

Why do you think that we should settle for less?  
Now take a deep breath  
No time to get rest when cats is testin' your vest

Kid you know who we are  
Afu to the Gang to the Starr  
We got props on every boulevard

Why do you think that we should settle for less?  
Now take a deep breath  
No time to get rest when cats is testin' your vest

Kid you know who we are  
Afu to the Gang to the Starr  
We got props on every boulevard

When I spark it up, and you ingest my skills  
I'm hanging down like I'm testicles  
Romancing like Cassa', more steps than a dancer  
Got a Pop Quiz? Yo, I help you with the answers

I'm Master Marvel, scribble the illest novel  
80 more albums, I got more pages than the bible  
Never allow my energy through Leviticus  
As I rebirth my soul, glowing Genesis

Eyes tearing through the fog, shout my brothers and  
sisters  
Who studied the Quran from a path of hip-hop  
Shall arm in a synagogue, dinner china mushroom  
song

As the night prolongs that means I'm 'bout to put it on

So abrasive, and persuasive  
Thugs pulled out of my set, stop pace makers  
Peace, computer-whizzes, graph-writers and breakers

Why do you think that we should settle for less?  
Now take a deep breath  
No time to get rest when cats is testin' your vest

Kid you know who we are  
Afu to the Gang to the Starr  
We got props on every boulevard

Why do you think that we should settle for less?  
Now take a deep breath  
No time to get rest when cats is testin' your vest

Kid you know who we are  
Afu to the Gang to the Starr  
We got props on every boulevard

I'm comin' through  
I'm holding aura, it backs the voice you can't ignore  
I'm comin' through  
It's Afu, you know who, I'm comin' faster

Yo, check this out  
You know it's on the popper when I'm on the scene  
That's right, it's me, DJ Premier  
Representing Gang Starr and all the affiliations along  
with it

And right about now, you in tune to Life Force Radio  
That's the way it goes down, and that's the way it's  
gonna be  
Word up and we outta here, DJ Premier and I'm out,  
peace!
