African sandals  
Cafe across the street  
My vision trembles  
Like an animal in heat

This ain't no kind of place for a temporary debutante  
This ain't no kind of place for a woman do don't know  
what she want

I wanna do something dangerous  
Walk right in the shadow  
I just think about the thrill and how it terrifies me...

CHORUS  
Danger Danger  
Got to feel the threshold  
Danger Danger  
(woh-oh-oh)  
Danger Danger  
Overload  
Danger Danger

In the heart of the Congo  
The riverbeds run deep  
Deep inside this woman there's a hungry heart  
Burning for a little savagery

I wanna do something dangerous  
Walk right through the shadow  
I just think about the thrill and how it terrifies me!

CHORUS  
Danger Danger  
Got to feel the threshold  
Danger Danger  
(woh-oh-oh)  
Danger Danger  
Overload  
Danger Danger

BRIDGE  
I do what I like

I like what I do, just what I want  
All my life...  
I wanna bite the hand that feeds me,  
Bite it right off  
I wanna lick my wounds  
'Til this feeling stops

I wanna do something dangerous  
Walk right through the shadow  
I just think about the thrill  
The thrill I get, and it terrifies me!

CHORUS  
Danger Danger  
Got to feel the threshold  
Danger Danger  
(woh-oh-oh)  
Danger Danger  
Overload  
Danger Danger
