"Imagination"

Visit "[Imagination](#)" on MotoLyrics.com

Swing your partner to the left and right
Spin the circle through the dead of night
Lose yourself when you close your eyes
Now everybody gonna fall in line

CHORUS

Leave a little something to your Imagination
Even though you can't see through the writing
Leave a little something to your Imagination
Even though you can't see through the writing

Move together when the voices call
Pray for mercy till you stand or fall
Love is easy when you give and take
C'mon, c'mon for everyone's sake

CHORUS

Leave a little something to your Imagination
Even though you can't see through the writing
Leave a little something to your Imagination
Even though you can't see through the writing

BRIDGE

Sons and daughters
Like walking on water
No hesitation
For your imagination

CHORUS

Leave a little something to your Imagination
Even though you can't see through the writing
Leave a little something to your Imagination
Even though you can't see through the writing
Leave something to your Imagination
Move to the left
Move to the right
Close your eyes
No compromise
Leave something to your Imagination...
