

Pomegranate "Big Change"

Visit "[Big Change](#)" on MotoLyrics.com

Big change
In the weather
A bit strange
How we came together

You walk along an empty street
Never know who you might meet
Some people come and people go
Can't always say
I don't want to know you
I don't want to know you

Big change
In the weather
Gets late
It's now or never

Communications gone astray
Can't think of a word to say
Are we too shy or is it fear
That stops our mouths when we get near to each other
When we get near emotion

Big change
In the weather
What's changed
Since we came together
Big change
In the weather
A bit strange
How we came together
Big change
In the weather
Big change
In the weather
