Weren't you the one who said it's over  
Weren't you the one who said it won't be long  
'Til the blue days fade  
Feel the weight upon your shoulder  
Like summer sun I know it won't be long  
Til the blue days fade  
Til the blue days fade

All of my pain, all of my time  
Offer up to you don't ask me why  
Give me an aim, give me a sign  
Put my trust in you don't ask me why

Weren't you the one who said it's over  
Weren't you the one who said it won't be long  
'Til the blue days fade  
'Til the blue days fade  
'Til the blue days fade  
Blue days fade blue days fade  
Blue days fade blue days fade  
Blue days fade
