Nothing ever happens
No one else could care
It all goes on anyway
These peoples needs ain't fair
Makes what we're doing
Feel like unfair
We've come a long, long, long way
We will get our share

Inside out and upside down
Inside out and upside down

Sickly green and yellow
Lemon juice and lime
We'll hold a mirror to your face
To reflect back your crime
You will not deprive us
Of a nickel or a dime
You can shout out all you want
We don't have the time

Inside out and upside down
Inside out and upside down

Nothing ever happens
No one else could care
It all goes on anyway
These peoples needs ain't fair
You will not deprive us
Of a nickel or a dime
You can shout out all you want
We don't have the time

Inside out and upside down
Inside out and upside down
