Society in a mess
Reflecting all the skips and the jumps in my head
Look at me, do my best
I'm doing when the doing is doing in my head

Sweet unknown, make me blessed
The distance from this place to your door is my test
Looking at me, looking at you
Looking for the missing piece of treasure that I need to
be true

A little understanding
A bit of faith and all that stuff
You'll be amazed how much it all works out

You open up your window
I'll open up my door to you
You'll be amazed how much it all works out
All works out
