### "Gatekeeper"

Well it's time to begin as the summer sets in  
It's the scene we set for new lovers  
You play your part painting in a new start  
But each gate will open another

June, July and August said  
"It's probably hard to plan ahead."  
June, July and August said  
"It better to bask in each other."

Gatekeeper seasons wait for your nod  
Gatekeeper you held your breath  
Made the summer go on and on

Well they tried to stay in from the cold and the wind  
Making love and making their dinner  
Only to find that the love that they grew in the summer  
Froze

February, April said  
"Don't be fooled by the summer again."  
February, April said  
"That half of the year, well you'll never be friends."

Gatekeeper seasons wait for your nod  
Gatekeeper you held your breath  
Made the winter go on and on

Gatekeeper, gatekeeper, gatekeeper  
Seasons wait for your nod
