I'll be the one who brings you coffee when you can't  
Get up  
I'll be the one who turns the light out when you go to  
Sleep  
I'll be the one who turns your stomach into something  
Else and you say  
Shut up, shut up, every time I say

I'll be the one who takes your coat off, one to take  
The blame  
I'll be the one you call your lover, every now and then  
You'll be the one who keeps me sober, one to keep me  
Sane and you say  
Shut up, shut up, every time I say it

And I'd cut my fingers to the bone,  
And I'd split my sides in for you

Tonight, we throw ourselves away  
And we make it every time  
When I thought I was ok  
You said I was alright  
As the night comes crashing down  
We catch ourselves a line  
Yeah we're only makin' out  
If we make it out alright

I'll be the one who stands beside you in the photograph  
I'll be the one that's in your water when you want me  
There  
I'll be the one you're falling over every time you

Laugh and you say  
Shut up, shut up, every time I say

I'll be the one who keeps you guessing, who swears a  
Lot  
I'll be the one that let your colour in the white wash  
You'll be the one that knocks the man out I was beating  
Up and you say  
Shut up, shut up, every time I say it

And you cut my face, I told you so  
I'd tear my eyes out for you

Tonight, we throw ourselves away  
And we make it every time  
When I thought I was ok  
You said I was alright  
As the night comes crashing down  
We catch ourselves a line  
Yeah we're only makin' out  
If we make it out alright

And I'd cut my fingers to the bone,  
And I'd split my sides in for you

Tonight, we throw ourselves away  
And we make it every time  
When I thought I was ok  
You said I was alright  
As the night comes crashing down  
We catch ourselves a line  
Yeah we're only makin' out  
If we make it out all right
