The diseases I'm immune to mean the peril of your people  
We will take your weak ones and convert them to church steeple  
Ladies cover your breasts and gents be ashamed of your dicks  
It's infected with the small pox now your back on the crucifix  
Witch doctors and shaman dressed like salmon and the bear  
Well their pagan poli-tricks cannot withstand biological warfare (warfare)  
Worshiping false idols, every vegetable has a deity  
While filthy gods who will not shame you or me  
I lay your anxiety

Aw snap  
Your whip is going crack  
You won't be going back  
To the village  
Until I've rewritten the map

Aw Snap  
The gator jaws' a trap  
It's trying to get me  
But I won't be caught until I've rewritten the map

Throw yourself through the dribble and  
Witness the horror of the city of glass

You motherfuckin' niggas  
I'll put you in your place  
The bass from of your amps is a mix of every race  
Bitchin like Latino, a little bit of French  
Your cultural heritage is sitting on the bench  
How ya like me now?  
I'm straight out of Spain  
You do a crazy dance until you wanna make it rain  
You wanna hurt me? Go poke a voodoo doll  
Here have a beer go play some basketball

Ya know, hella nice like Florida, it's not like Espanola

I need a larger army and a case of diet coca cola  
Your poison dipped gun shot my spirit in the asshole  
It makes me want to go back to my Puerto Rican castle

Aw Snap  
The gator jaws' a trap  
It's trying to get me  
But I wont be caught until I've rewritten the map

Aw snap  
Your whip is going crack  
You won't be going back  
To the village  
Until you've fought the sneak attack  
You cannot understand the future  
Until you let the present pass

(The gator jaw's a trap)  
(The gator jaw's a trap)  
(The gator jaw's a trap)  
(The gator jaw's a trap)  
(The gator jaw's a trap)  
(The gator jaw's a trap)

The gator jaw's a trap

Aw Snap  
The gator jaws' a trap  
It's trying to get me  
But I wont be caught until I've rewritten the map

Aw Snap  
The gator jaws' a trap  
It's trying to get me  
But I wont be caught until vie rewritten the map

Snap

Aw Snap
