Thinking through this and I cant stop.
I won't let you in, come out on top.

Every time, all the time, touch me.
Try me, talk me down.

I know what you're thinking.
I know what you'll say. I know you don't mean it. i know
you won't stay.
Don't warn me, Don't clarify.

Let me see the fear in your eyes when you say
something sweet.

Trust me when I say I'll always know better than you.
I'll always know better than you.

Your eyes are saying dirty things while your mouth tries
to be smart.
When I can read you like a book.
I know just where to start.

Every time, all the time, touch me.
Try me, talk me down.

Don't waste your breath proving me wrong.
I know what I'm doing. I've known all along.
Don't warn me. Don't clarify.
Trust me when I say I'll always know better than you.

I'll always know better than you.
I'll always know better than you.
I'll always know better than you
