What am I to do  
Am I the only one who cares to see me through  
Who will I become  
From this struggle that's kept me here so long  
Weighed down by the thought of needful things  
I give it up to You  
I'm going nowhere

Tapping into all You are  
Release within me  
Move me from the inside out  
You are my energy

I can hardly breathe  
The pressures just too much, it's taken all of me  
Reaching out for you to take me as I am  
I give it up to you  
I'm going nowhere

Tapping into all You are  
Release within me  
Move me from the inside out  
You are my energy
