I'm gonna love you darling
I'm gonna love you straight
I'm gonna love you darling
And I'm gonna love you straight, straight till the dawn
Straight till the dawn, straight till the hidden place
You have never seen before

I'm gonna love you darling
I'm gonna love you straight
I'm gonna love you darling
I'm gonna make you wait, wait till the dawn, wait till
The dawn
Wait till the hidden place remains no longer more

Did you ever see your... out crying?
Did you ever see your... out crying?
If you ever seen me so down dying
Let me know you see me low down crying dying
