slowly breaks the day  
here in its arms  
you can stay  
try to stay low  
low low  
try not to fight  
so get up and leave nothing behind  
shut the blinds  
you qualify all right  
try not to fight  
i want to turn you over  
i want to turn you in  
i want to turn you on  
slowly breaks the day into night  
sattelites aim for your eyes  
try not to fight  
slowly breaks the day  
can't make it all go away  
try to calm down  
down down  
try not to cry  
i want to turn you over  
i want to turn you in  
i want to turn you on
