Ooohh...lalala....lalala
I was once a child like you
Always asking why, how, who
Brought me here, why?
All I could say is love
Love is the reason I am here.

I was once a child like you.
Playing games was all I knew
until one day
I started asking why
People have to die.

Chorus:
So many questions.
With just one answer.
So many pieces
For just puzzle
So many roads lead
To one direction.
So many doors flung wide
With just one key.

*

I was once a child like you
Always asking why, how, who
brought me here, why
Love is the answer love
Love is the reason I am here.

Repeat Chorus and *

Love....
Love is the reason we are here.
