I can choose anything I want in life
As long as it's in the list they bring
Everything I dream was once picked from the list that
they bring
Everything I hope for was picked from the list they
bring
It's multiple choice

It was persuaded since I was born
I don't mind, I like what they like
A, B, C, D, E, F, pick from the list
I don't mind as long as you're in it

I've been thinking, two of these options sound correct
No, they told me, chop chop they yell staring at the
clock
Will you grow up to be another nice looking lawyer?
Or will you grow up to be another fuck up bump?
I'm handing it back in blank

It was persuaded since I was born
I don't mind, I like what they like
A, B, C, D, E, F, pick from the list
I don't mind as long as you're in it

I've frustrated all
Now I'm bored and old
Cannot free from ghosts
They can't grasp just like fog
And I'm fucked

It was persuaded since I was born
I don't mind, I like what they like
A, B, C, D, E, F, pick from the list
I don't mind as long as you're in it
