Shoulders of silk embrace me the day begins  
Emulating the sense of your presence  
Impossible as it may seem  
I calculate what could'uv been  
Hypnotized eyes as I picture your face with a smile  
I lay catatonic for hours  
Impossible as it may seem  
I sense we interact in this scene  
What people tell me I don't hear  
I'm sure they don't know how it feels

And I do things as they come  
Pretending I'll soon be with you  
Impossible at it may seem  
I can't let you go just like this

We both died exactly at the same time  
I do wish I was wiser  
Impossible as it may seem  
I know you will soon come for me  
My hand stretches out to reach  
The closure was snatched from me

And I do things as they come  
Pretending I'll soon be with you  
Impossible as it may seem  
I can't let you go just like this  
And I would rather just hear  
You found someone better than me  
That you did not say goodbye  
Cos you couldn't find it in your heart

Find a distraction, a friend, a discussion  
Mimic the clumsiness found in the bottle  
Grieve, grieve, grieve, no!

And I do things as they come  
Pretending I'll soon be with you  
Impossible at it may seem  
I can't let you go just like this  
And I would rather just hear  
You found someone better than me

Impossible as it may seem  
Denial is the only thing  
Keeping me here alive  
Take me! take me!  
Why me? why me?!
