Sometimes I fear the reaper  
Sometimes I'm afraid to die  
I think it's hard to leave my loved one  
I think it's hard to say good-bye

So don't you ever go my darling  
Don't you walk into the light  
Why can't we be forever  
Together forever united

And I will never let you go  
So won't you leave me alone again and crying  
Side by side we walk into the light  
Stay with me beyond the end of time

So don't you worry fuzzy darling  
Calm down an' don't you get a fright  
I swear to you, I promise  
That ev'rything will be alright

The sun is low, the days are over  
Say hello to the cold and friendly night  
We laugh and sing and dance together  
Into the morning light

And I will never let you go...  
No longer I fear the reaper  
No longer I'm afraid to die  
You swore to me, you promised

That ev'rything will be alright  
You'll be forever with me  
And walk the final journey  
You'll kiss me just like honey

We rest in peace for all eternity  
And I will never let you go...
