I couldn't care less, couldn't care less
That's what I say when they ask me about you
Try to hold on too proud but they know I lie
When I say I couldn't care less for you.

There was a time when in your heart you loved me
I knew it anyone could plainly see
But someone new came by that you love better
Just can admit I'm left with memories.

I couldn't care less, couldn't care less
That's what I say when they ask me about you
Try to hold on too proud but they know I lie
When I say I couldn't care less for you...
