Now if I could only start over and have a new life to
begin
Oh I wouldn't live like a rover and drift like a leaf in the
wind
Cause I'm dreaming tonight of old sweethearts and
believe me I've had quite a few
But I never dreamed of old sweethearts the way that I
dream about you
[fiddle - el.banjo]
Yes I let you slip through my fingers while foolishly
searching around
But if I could only start over I know you could settle me
down
Cause I'm dreaming tonight...
But I never dreamed of old sweethearts the way that I
dream about you
