All week long I've had the blues and it's about to get
me down
This loneliness is just too much for anyone to be
around
But tonight I'm a gonna have some fun I'm gonna try
with all a my might
So you better watch out you pretty little girls I'm a
steppin' out tonight
I'm a steppin' out tonight.

I'll get around and paint this town and see what I can
find
Maybe I'll find a pretty little girl who'll give me the
come-on sign
And if I do woe is me cause I'm a gonna be a sight
So you better watch out you pretty little girls I'm a
steppin' out tonight
I'm steppin' out tonight.

--- Instrumental ---

To look at me you'd think I'd be another bashful guy
But I long for the chance to find romance and I just
won't pass it by
When I hold their hands they'll understand we'll get
along all right
So you better watch out you pretty little girls I'm a
steppin' out tonight
I'm steppin' out tonight.

I'll get around and paint this town and see what I can
find
Maybe I'll find a pretty little girl who'll give me the
come-on sign
And if I do woe is me cause I'm a gonna be a sight
So you better watch out you pretty little girls I'm a
steppin' out tonight
I'm steppin' out tonight...
