I'm through with love Loves through with me I guess
I've messed up one time too many
Can't get it together I've gone to the wall I've made it
this far In spite of it all In spite of it all
You will knock me down When you come around You
will take my heart Tear it apart You will mess around
Confess it now Y'want me to crawl But I'm standing tall
In spite of it all In spite of it all In spite of it all
I'm down with you You're done with me Don't make it
hard Why can't you see
You're wasting my time I spend it all on you I'm not
gonna fall In spite of it all
In spite of it all
You will knock me down When you come around You
will take my heart Tear it apart You will mess around
Confess it now Y'want me to crawl But I'm standing tall
In spite of it all In spite of it all In spite of it all
You lose me You confuse me Don't use me Then refuse
me You're lying I'm trying I'm done with your denying
You will knock me down When you come around You
will take my heart Tear it apart You will mess around
Confess it now You want me to crawl But I'm standing
You will knock me down When you come around You
will take my heart Tear it apart You will mess around
Confess it now Want me to crawl But I'm standing tall
In spite of it all In spite of it all In spite of it all
