I'm livin' in the past a life I once knew
You left me behind what else can I do
I'm cryin' in my sleep my dreams won't come true
I'm livin' in the past with mem'ries of you.

You say you've found a new love and I should find one too
You tell me to forget you that's somethin' I can't do
I'm livin' in the past I guess I can't learn
I'm hopin' that someday my love you'll return.

--- Instrumental ---

You say you've found a new love and I should find one too
You tell me to forget you that's somethin' I can't do
I'm prayin' night and day that you're sorry too
I'm livin' in the past dear what about you...
