You're the words I feel inside of my soul
And the light I see beyond my control

So don't be afraid to give and to take
Don't be afraid your heart's gonna break

Love is all, love is one, love is unconditional
Love is all you need in your heart so let it be
Love is tough, love is torn, love is unpredictable
Love won't judge... love is unconditional

You're the touch I feel in my heart I know
You're the breath that i take that I can't let go

So don't be afraid to give and to take
Don't be afraid your heart's gonna break

Love is all, love is one, love is unconditional
Love is all you need in your heart so let it be
Love is tough, love is torn, love is unpredictable
Love won't judge... love is unconditional

If I had the sun, could I count on you
If I had the moon would you be there too
If this was the last day of our lives
I see that day with you

Love is all, love is one, love is unconditional
Love is all you need in your heart so let it be
Love is tough, love is torn, love is unpredictable
Love won't judge... love is unconditional
