

Portugal. The Man

"All My People"

Visit "[All My People](#)" on MotoLyrics.com

Oh oh oh oh deeper in and deeper still use your hands
like eyes sift around the bottom row and soon will be
your time keep your hands by your side keep your
hands by your side I've got my hands on it I've gotta
find a way out I've got my hands on it I've gotta find a
way out to bring all my people with me bring all my
people with me deeper in and deeper still the belly was
the bank the lion holds the mouth we feed still died at
forty-five keep your hands by your side keep your
hands by your side I've got my hands on it I've gotta
find a way out I've got my hands on it I've gotta find a
way out to bring all my people with me oh oh oh oh
