Share with me the sun
You forget sometimes it's yours
Can't you see you're not the only one
The doors all lead outside
Feel it soak into your mind
Can't you see you're not the only one

Well my head, it gets so tired
No need to cry, no need to fight it
Throw your money in the Gulf of Mexico
In the end, in the end it all will glow
It's just the time it takes me so, oh

Share with me the sun
You forget sometimes it's yours
Can't you see you're not the only one
The doors all lead outside
Feel it soak into your mind
Can't you see you're not the only one

I know these hands may work away
Don't mean I find no time for play
I feel the shape of things to come
In the end, in the end it's why run
From the east and the west as we become
One

Share with me the sun
You forget sometimes it's yours
Can't you see you're not the only one
The doors all lead outside
Feel it soak into your mind
Can't you see you're not the only one

In the end, time may take me
In the end, time will take you too
In the end, time may take me
In the end, time will take you too
