

Portugal. The Man "The Pushers Party"

Visit "[The Pushers Party](#)" on MotoLyrics.com

I'm paper love are you sure you're up my hands the sun
mouth your love purple skies yellow green trees
dripping down through the colored streets press your
ears down to the ground feel that heart pumping
through the ground? the pusher was the feet and the
feet the floor when we got a little bit well we got a little
more once we count to four then we count to ten we'll
take up every bit that we give to them the pusher was
the feet and the feet the floor when we got a little bit
well we got a little more once we count to four then we
count to ten we'll take up every bit that we give to them
sorry for the party i'm sure you've had enough wait
here while we wake him he should be getting up,
forever forever share the love eat it up take the spoons
and dig it up find your way down paper trails ship it out
and stack it they shipped out all the boys then they
shipped some more gathered all the lights placed
outside your door the corners were to dark for the dark
in them so find the center there place them down on
the floor they shipped out all the boys then they
shipped some more gathered all the lights placed
outside your door the corners were to dark for the dark
in them so find the center there place them down on
the floor ohhhhh forever forever sorry for the party i'm
sure you've had enough wait here while we wake him
he should be getting up, forever forever
