[Chorus]

You better know  
Where you wanna go  
[2x]

[Mr. Lil One]

It's started the day I came  
Rain fell like it never had  
It was pourin on my man hood  
Sayin fuck her bad  
I remember I was stressin  
I was guessin about my days  
In the wrong direction  
I was livin in a maze  
Trials and tribulations  
I was facin had me wastin  
Many days and many nights  
Until the days they read my rights  
I was all up in the county  
Conversatin with these fools  
I was all up in the county  
Mobbin in my blues  
Fools talkin about their lifes  
And how they miss their wives and kids  
Others talkin about how they love to do them bids  
And since I was a kid  
I knew about these mothafuckas  
Then I grew to be one of these mothafuckas  
A fan don't give a god damn  
If you shit turns to dust  
A fan don't give a god damn  
If he betrays in your trust  
And trouble all ways follows  
Bottles sippin in my liver  
Figure I'd just get away from all this bull shit

[Chorus]

[Knightowl]

Keep tabs on the shit you say  
Or I'ma blast you with an AK

I'll send you mothafuckas to Judgment Day  
You best take notes  
The last one caught a bad one  
He never had a chance  
Cause I premeditate my plans  
Look at all those fools that spoke  
They don't exist  
They got dismissed  
And I got all their homies pissed  
BUt ya'll think I give a fuck  
You must be crazy  
I be the type of fool that kills  
And it won't phase me  
Long live the real  
Forever curse the ones that squeel  
That don't deserve to be around  
So I'ma buck em down  
The ones that talk  
Be the ones that never walked the walk  
They be the fools that lay in the concrete  
Bloody, gone like Biggie  
Now what the fucks all the comotion  
Drop a body in the ocean  
But not before I beat em  
I must delete em  
Then let the fishes have some human dishes  
I'll battle any one who wishes  
Fuck all you bitches

[Chorus]

[Mr. Lil One]

Now it's best for you to stay away  
When I speak about my troubles  
Double barrel got my back  
I get psychopathic when I rap  
Stack the truth I got the proof  
Enemies know the situation  
Elevation getting higher  
Wish the fire burn my sins  
All my friends and all my foes  
Even you know where I'ma go  
And no it ain't by choice  
But the choice is some times ain't given  
So I do what I gotta do  
If I wanna remain on live  
I'm given a fuck  
But I'm runnin with luck  
So what do I do not to get stuck  
Seems I'm runnin out of choice  
Still I'm hearin voices

Runnin all up in my dome  
And my brain ain't taken pain  
But I'm runnin with this lesson  
Smith and Wesson in my possession  
And depression always follows  
That's why I'm sippin bottles  
I'm fightin with this force  
Some times I feel that I'ma never win  
Still I gotta remain strong  
And hear this song again  
And put it through my head  
Whether I'm alive  
Or whether I'm dead  
That every single man in this world  
Once shed  
A tear

[Chorus]

[Mr. Lil One (Talkin)]  
Yeah...  
And that some real shit...  
And that some real shit...  
(laughin)
